DETAILED ACTION

Drawings

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the "default function sets" and "default data records of a subscriber database" must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.
2. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

3. Claims 1-11 are allowed.

4. The following is an examiner's statement of reasons for allowance: The invention as now claimed is not disclosed nor rendered obvious in view of the prior art of record. As to independent claims 1, 6, and 11, the prior art of record fails to teach or suggest, alone or in combination, the recited method, system, and apparatus, which stores subscriber functions for each special subscriber in subscriber-specific data records of a subscriber database, each subscriber-specific data record being specific to the special subscriber concerned, reading the subscriber functions for each default subscriber of a plurality of default subscribers from the default data record concerned, reading the subscriber functions for each special subscriber from the subscriber-specific data record for the subscriber concerned, and managing the subscriber functions in the telecommunication network by using subscriber functions read from the default data record and from the subscriber-specific data record. No prior art was found that discloses or teaches the limitations of claims 1, 6, and 11.

5. Claims 2-5 and 7-10 are dependent upon claims 1 and 6, respectively, therefore, claims 2-5 and 7-10 are allowed.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
